

Best Practices

Best Practice - 1

Title: National Mathematics Day Celebration

Objective:

To inspire students to appreciate mathematics and its real-life applications, honouring Srinivasa Ramanujan's legacy.

The Context:

The event aimed to enhance students' understanding of math and its real-life applications. It fostered curiosity and analytical thinking among them.

The Practice:

The Department of Mathematics organized a program with a guest speaker on the practical applications of math in daily life. The interactive session allowed students to engage and learn.

Evidence of Success:

The lecture sparked interest among students, evident from their enthusiastic participation.

Problems:

Scheduling the guest speaker's availability was challenging.

Best Practice – 2

Title: Blood Donation Camp

Objective:

To raise awareness about blood donation and encourage participation among students.

The Context:

Blood donation saves lives and benefits society. Organizing blood donation camps on campuses allows students to contribute to healthcare initiatives.

The Practice:

The event was supported by the college staff, with Dr. Meghna Patankar delivered a lecture on "Improving Hemoglobin Levels, Especially for Female Students."

Evidence of Success:

Raised awareness about the importance of maintaining healthy haemoglobin levels.

Problems:

Challenges in sourcing resources within a short timeframe.
